Comprehensive e-commerce solution**
 - **Q&As**

Russia is developing into a competitive IT hub and the e-commerce industry is one of the most promising branches. With 16% growth in 2015, the sector provides development opportunities for the trade and for producers. Due to the membership of the Eurasian Economic Union, the market is, with approximately 180 million inhabitants, highly relevant in global business. During our seminar, you will learn how to build your online shop in Russia without the hassle of company registration.
